1 Preface

The gambling and gaming industry in Ontario operates under strict regulations to ensure a secure and trustworthy environment for all players. All gaming apps licensed under Ontario's iGaming operators adhere to rigorous standards designed to maintain the integrity of the system and protect players.

As part of these standards, gaming apps **may occasionally** request proof of identification or verification of deposit details, such as a screenshot of an e-transfer receipt. These requests are entirely normal and are implemented to confirm the identity of players, prevent fraud, and safeguard the platform against unauthorized use.

All information should be accurate and in your name. This removes any opportunity for hiccups along the way.

2 General Details

This section covers general important principles for sign-up and deposits.

2.1 Personal Details

All details on sign-up should be authentic and your-own; this goes for first/last names, DOBs, phone number, etc... The gaming industry is well regulated, and will not let you sign-up in the case that information doesn't correspond to your identity.

2.2 Password

Please use a non-personal, consistent password. As an example, in the images, I signed up with ('Markyboo33!'). This will let me login to the account and do the hedge(s) from my side effortlessly - it can be anything.

2.3 Identity

Be ready to have you ID on hand. On certain occasions, iGaming enforces and verifies identification to ensure your personal details fall in place correctly.

2.4 Occupation

On sign-up, you might be asked for an occupation. You can safely put down Student, or another relevant occupation that coincides with yours.

2.5 2-Factor Authentication

Certain books (TheScore, BallyBet, BetRivers) require phone number on login. Please sign up with a personal and accessible phone number.

2.6 Deposit/Play Limits

Please set this to either No Limit, or an arbitrary large number.

2.7 Opt-In to Promos

Make sure that before depositing, you opt-in to the correct promo, or have a deposit code ready (if necessary). In most cases, there is nothing to opt-in to.

2.8 Deposit with Interac E-Transfer

E-transfer is the most convenient deposit approach. You can either do the E-transfer through a bank transfer, or as a regular E-transfer with a MESSAGE.

Please do not use a credit card, as you will incur a credit advance fee, which will cut into profit.

2.9 Order of Profitability

The books are listed in decreasing order of profitability. The first books are more profitable than the last books.
